

VASCULARISASI SITUS ABDOMINIS

AORTA ABDOMINALIS:

1. Cabang parietal:
 - A.phrenica inferior
 - A.lumbalis
 - A.sacralis media

Zoom

2. Cabang visceral:

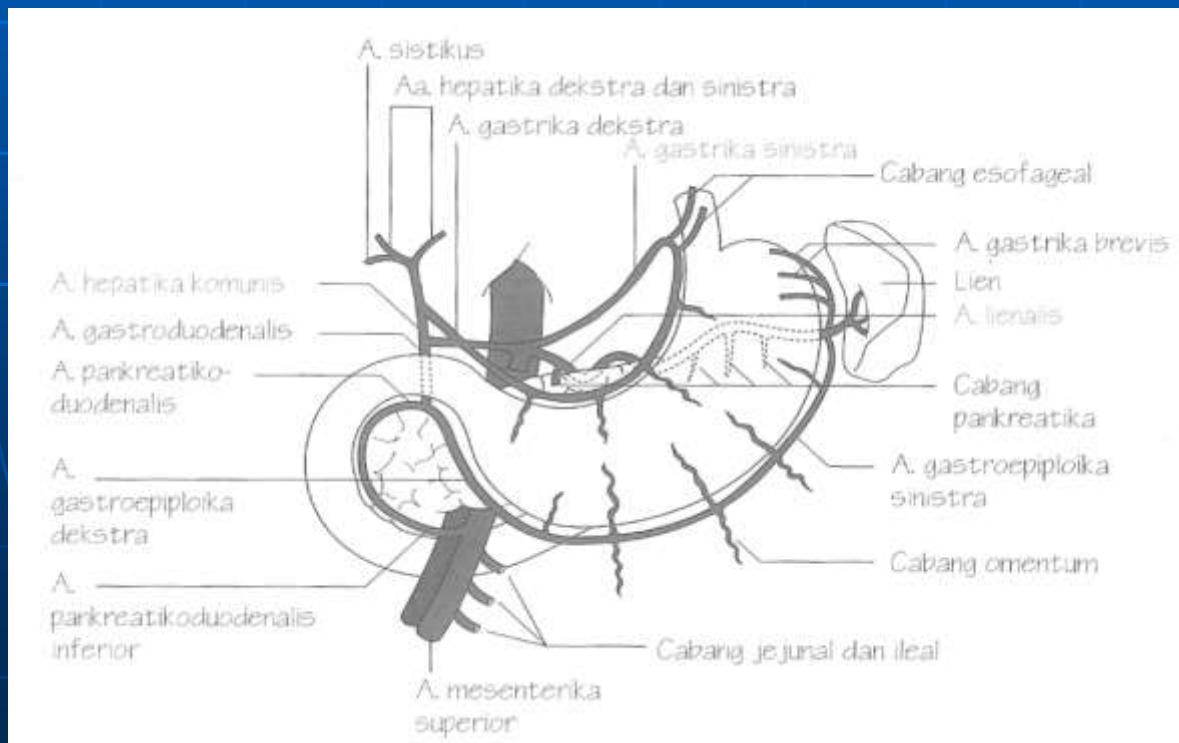

- A. coeliacus / truncus coeliacus
- A. mesenterica superior
- A. mesenterica inferior
- A. suprarenalis media
- A. renalis
- A. testicularis/spermatica interna/ovarica.

3. Cabang terminal:

- A. iliaca communis dextra/ sinistra.

CABANG- CABANG TRUNCUS COELIACUS

1. **a. Hepatica communis:**
 - a. Gastroduodenal
 - a. Gastrica dextra
 - a. Hepatica propria ----- a. cystica
 2. a. Gastrica sinistra
 3. a. Lienalis
- a. Hapatica comm, a.gastrica sinistra, a. lienalis ketiganya disebut TRIPLE HALLERY.

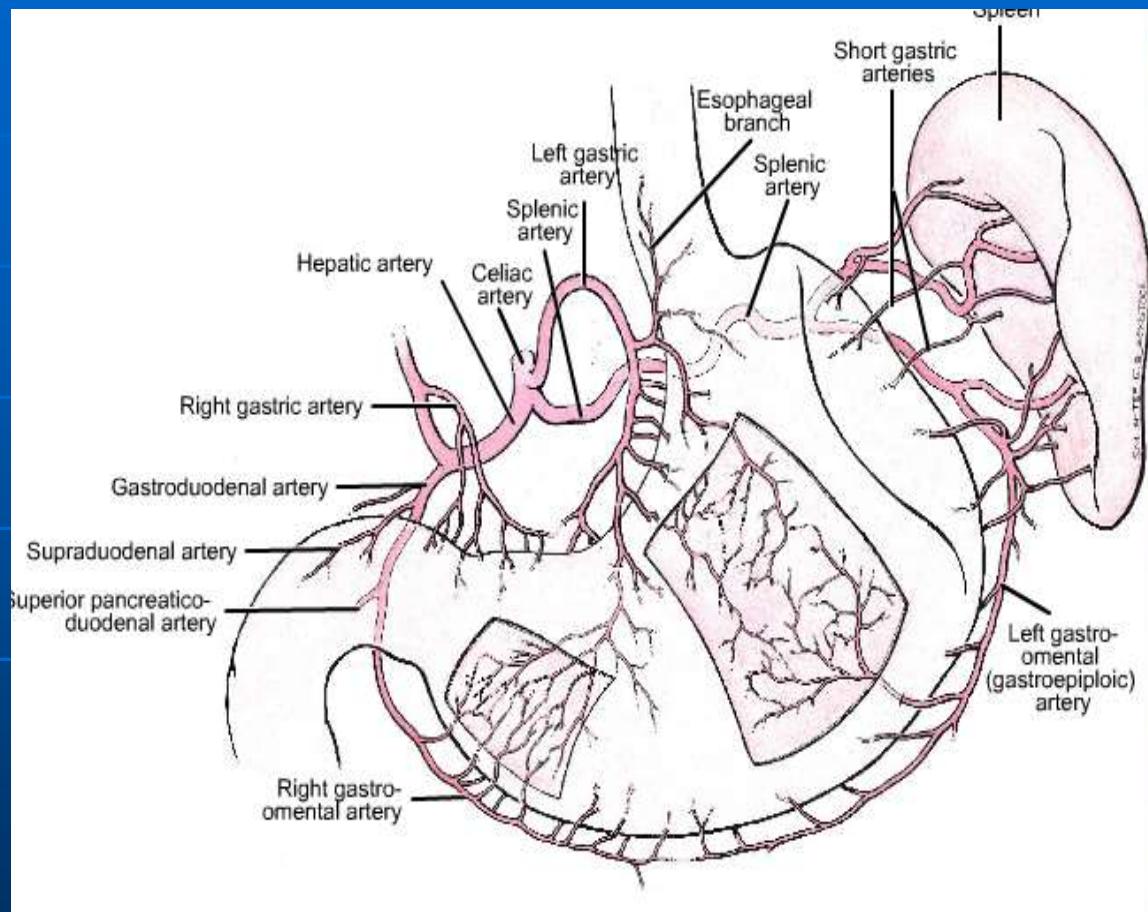

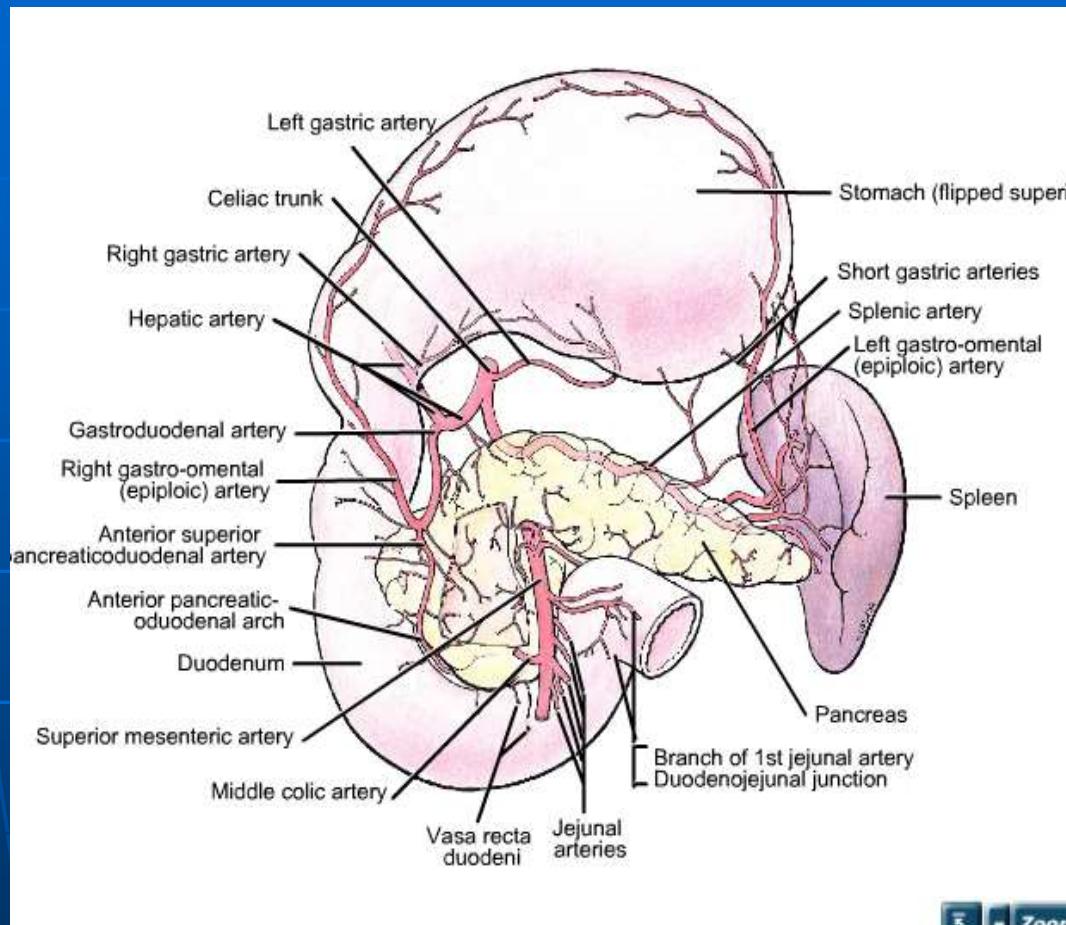

Cabang2 a. Gastro duodenal:

- a. Gastro epiploica dextra
- a. Pancreatico duodenalis

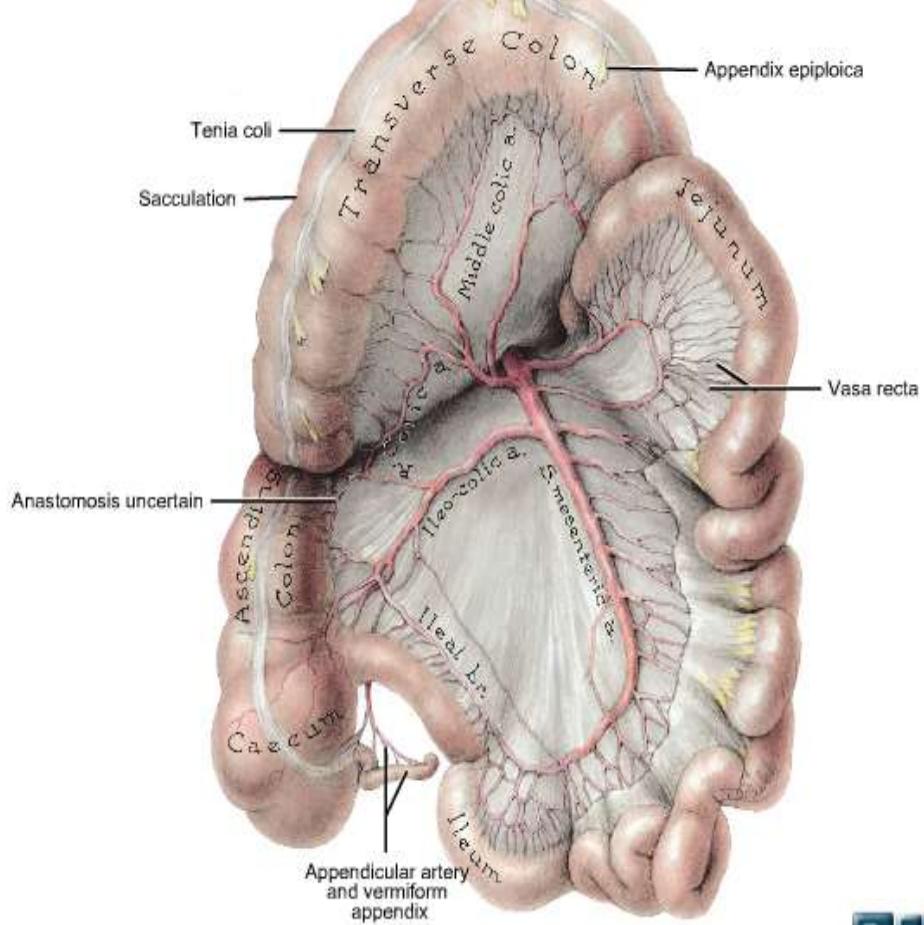

Cabang2 a. Mesenterica superior:

- a. Pancreatico duodenalis inferior
- aa. Intestinalis
- a. ileocolica
- a.colica dextra
- A. colica media

Zoom

Cabang2 a.iliocolica

- Rr colici
- Rr caecalis
- a. appendicularis
- Rr.Ilei

Cabang2 a. Mesenterica inferior:

- A. Colica sinistra
- a. Sigmoidea
- a.Haemorrhoidalis superior/ a. rectalis superior.

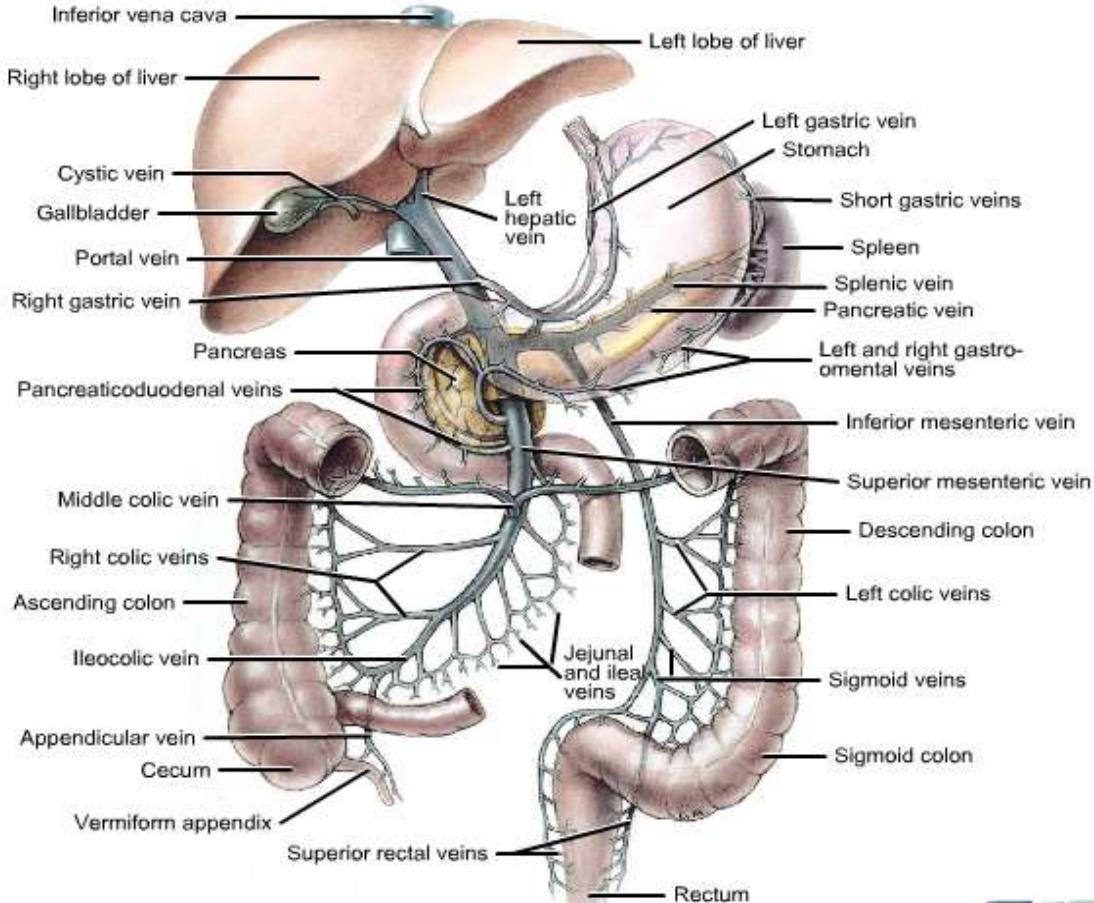

SYSTEM PORTA:

Vena Porta merupakan persatuan dari:

- V. mesenterica superior
- V. lienalis

Akar2 V.Porta:

- V.lienalis
- V. coronaria ventriculi
- V. mesenterica superior
- V. cystica
- V.parumbilicalis

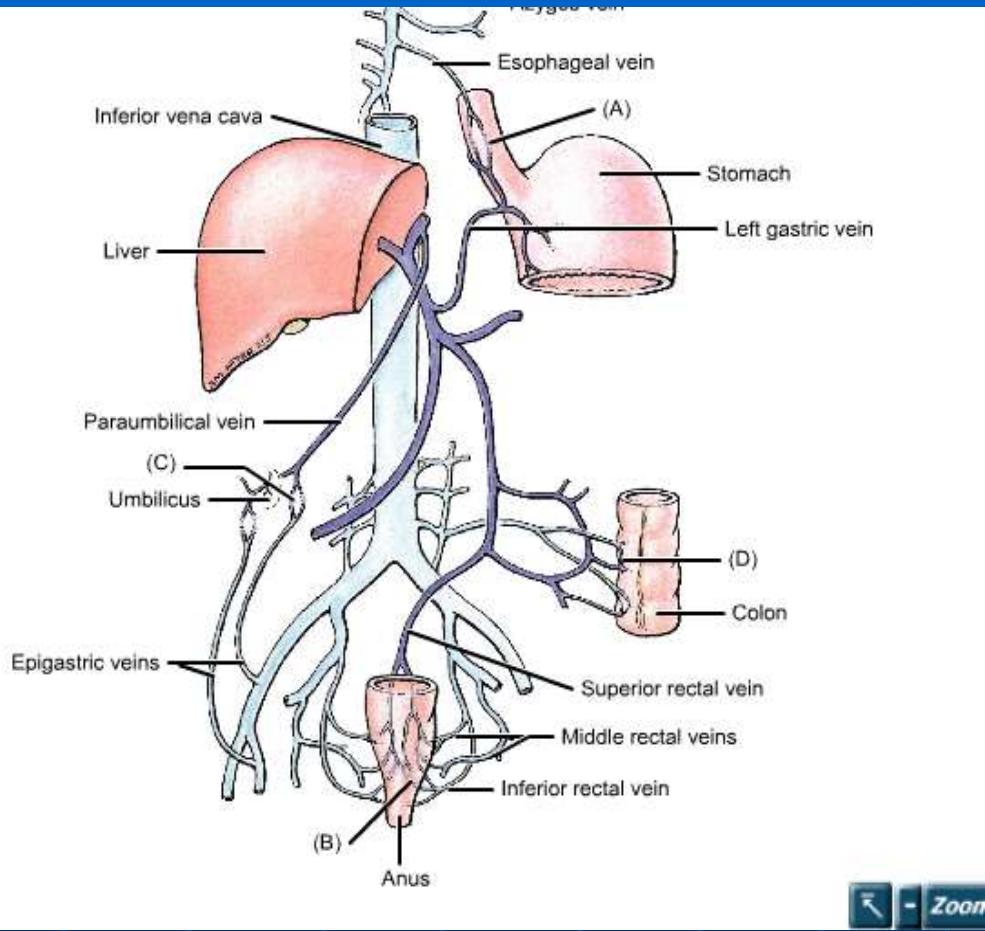

V. Lienalis menerima darah dari:

- Vv. Ggastrica brevis
- Vv.gastroepiploica sinistra
- Vv. Pancreatici
- V. mesenterica inferior

V.Mesenterica inferior membawa darah yang berasal dari rectum, colon sigmoid, colon descendens. Dimulai dari rectum sebagai plexus hemorrhoidalis media dan inferior.

V. Mesenterica superior menerima
darah dari:

- V.intestinalis
 - V. iliocolica
 - V. colica dextra
 - V. colica media
 - V. astroepiploica
 - V. pancreaticoduodenalis
